

Monte Carlo Key Features

- ❖ A sleek ultra-modern side post (cantilever) umbrella ideal for any application, particularly south / south-west facing terraces and pool-side environments

The canopy is manoeuvred through 3-axis:

- ❖ *Optional height adjustment, lever operated – ideal for sun beds*
- ❖ *The canopy can rotate through 360°, lever operated*
- ❖ *Canopy can tilt up to almost 90°, lever operated*
- ❖ The canopy retracts to the side upon closing the umbrella
- ❖ High mobility, with a choice of anchors, including wheeled bases
- ❖ Mast diameter is 2.1/4"
- ❖ Constructed from anodized extruded aluminum alloy
- ❖ All fittings are made from stainless steel
- ❖ Spokes are made from spring steel, double powder coated in silver-gray
- ❖ Canopy is easily operated, opens and closes via a removable crank handle
- ❖ European solution-dyed acrylics are employed for the membranes (fabrics) with a choice of around 40 colors
- ❖ A protection cover bag is included
